### THE TOBACCO MARKET.

## This Week's Review of the Leaf Trade

in Winston Receipts of leaf tobacco last week in Winston have been quite satisfactory, considering the season and the extreme condition of the weather. Some very good lots of choice leaf were offered, which were in good condition and we I handled. In addition to this there was the usual amount of barn trash which makes its appearance on the market at this time of the

year and which hardly pays for hand-The Tobacco Journal says that pri ces on all the offerings of any quality this week were fully up. Several lots of fine old fillers were sold and brought stiff figures. Some stray lots of good mahogany wrappers also sold at out-side prices. Manufacturers are still active bidders on every sale and never allow anything of good quality to go

sold lastweek. The weather has been a degree better and tobacco is reported somewhat ly at the convention on the 13th it improved. Still the crop in a doubtwould not surprise me if one faction | ful balance and only the future can tell what it will be. From present indications anything like a fine wrap-per crop seems out of the question. Trade in manufactured article re nains good for mid summer weather Leaf salesmen are crowding the man-

Great Remedies. To THE PUBLIC: After several months use of King's Royal Germetuer, I must pronounce it in many respects the most marvelous medicine

I have ever seen or known of for the multitude of its remedial virtues.

First, drawing upon experience, I know that
it will cure catarrh. I succeeded the Rev. Dr. Hawthorne as the pastor of a Baltimore chi just twenty-one years ago. Removal to a colder and more changeable climate, with want of care in protecting myself, brought on an at tack of catarrh which has continued with me ever since until I commenced taking Roya Germetuer some months ago, from the use of which I am now quite entirely well.

2. It is, as claimed, really a positive cure for stomach troubles, such as indigestion, dyspepsial sick headache, etc. This I know from exper

3. I have never found a better nerve tonic and general invigorator. It gives Fealthfu and refreshing sleep, and as a cure for insomnia ought by all means to take the place of the bromides, chloral and other deleterious if no langerous drugs. It is a fine tonic for public speakers, taken both before and after speaking, as I know from experience, and no ther tonic or stimulant is needed in rall from the exhaustion of public and especial outdoor speaking. In fine I used to smile the enthusiastic testimonials of my person friends, Rev. Drs. Hawthorne and Henseley.

concerning Royal Germetuer, but having used a dozen bottles of it and been made well nigh "every whit whole," I can but adopt the lan-guage of the queen of Sheba and say: "The half has never been told." Very respectfully, G. W. Sanderlin,
